SUMMARY

Full Stack Software Engineer with around 2 years of hands-on experience developing responsive web applications using React.js, Next.js, JavaScript, TypeScript, Node.js, Express.js, GraphQL, SQL and NoSQL databases. Experienced in REST API integration, frontend development, backend services and modern Git-based development workflows. Strong foundation in Object-Oriented Programming, Data Structures & Algorithms and Database Systems, with a keen interest in mobile application development, artificial intelligence and continuously learning new technologies. Passionate about building scalable software solutions and contributing to collaborative development teams.

WORK EXPERIENCE

Junior Frontend Engineer
Nov 2025 - Current

Softations (Gujrat, Pakistan)

- Developed and maintained responsive web applications using React.js and Next.js.
- Integrated GraphQL and REST APIs to manage and display application data efficiently.
- Debugged and resolved frontend issues, ensuring reliability and scalability of web applications.
- Worked within Agile development cycles using Jira and Git for project management and version control.

Frontend Developer Intern
Aug 2025 - Oct 2025

DevSum (Islamabad, Pakistan - Remote)

- Developed dynamic UI components using React, Tailwind CSS, and modern libraries.
- Worked on API integration, state management, and frontend performance optimization.
- Built responsive and reusable components for scalable web applications.
- Collaborated in an agile environment and delivered tasks within strict deadlines.

Web Developer Intern
July 2025 - Aug 2025

Siber Koza (Kharian)

- Developed and maintained responsive web applications for cross device compatibility.
- Improved website performance and SEO rankings through optimization techniques.
- Collaborated with developers to enhance UI/UX and deliver quality solutions.
- Debugged and fixed frontend issues to ensure smooth application functionality.

Web Development Intern
Sep 2024 - Dec 2024

Realz Solution (Islamabad, Pakistan - Remote)

- Built fullstack web applications using React.js for frontend and Node.js for backend APIs.
- Integrated Twilio API to enable SMS and voice call features in client applications.
- Developed responsive, high-performance interfaces with a focus on usability and UX.
- Collaborated with teams to deliver production-ready features aligned with client requirements.

Full Stack Developer Intern
July 2024 - Aug 2024

Urbanloop Tech (Islamabad, Pakistan)

- Worked on an AI powered search system to process user queries and generate text and visual responses.
- Integrated Fastify, Node.js, and PostgreSQL to build scalable and efficient backend services.
- Worked on API integration, CRUD operations, and optimization of fullstack application performance.
- Designed dynamic user interfaces using EJS for improved user interaction and experience.

EDUCATION

BS Computer Science
Nov 2022 - June 2026

University of Gujrat (Gujrat, Pakistan)

SKILLS

Programming	C++, C#, Python
Development	React.js, Next.js, JavaScript, TypeScript, EJS, HTML5, CSS, Tailwind CSS, React Native, ASP.NET , Node.js, Express.js, Redux, Supabase, GraphQL
Databases	MongoDB, SQL, MySQL, PostgreSQL
Tools & Workflow	Git, GitHub, Jira, Vercel, CI/CD, Docker

PROJECTS

SketchWise - Your Personal Art Tutor

- Developed a cross-platform mobile application using React Native that transforms user-uploaded images into pencil-style sketches and vector line art using GANs, enabling fast and efficient image processing.
- Engineered a scalable backend system with Python and Express.js to generate step by step sketching videos asynchronously and manage a secure token based credit system, delivering an interactive and educational drawing experience.

CanadaPrepSolution - Prep Website

- Built a responsive platform to streamline e-commerce prep center workflows, enabling efficient product processing, tracking, and fulfillment operations.

TripVerse - Travel Planning and Booking Platform

- Built a scalable web application with MVC architecture, enabling itinerary planning, booking management, and secure data handling using C#, ASP.NET, SQL.

Notely - Notes Management System

- Developed a full featured notes management web application using React.js and Supabase, featuring secure authentication, CRUD operations for notes and categories, and a clean, responsive user interface.

InternHub - Employement Dashboard

- A responsive internship and employment dashboard using React.js and Tailwind CSS with features like candidate tracking, job listings, and interactive data visualizations using Recharts.
